PRESS RELEASE

Calgary, AB – March 3rd, 2021

Blackfoot Motosports Introduces OHVALE Mini GP Bikes to the Western Canadian Market with Exclusive Agreement

Blackfoot Motosports is pleased to announce they have reached an exclusive agreement with Eurorace Canada to market and retail these premium Mini GP Bikes and parts & accessories from OHVALE in the Western Canadian Market.

OHVALE motorcycles are a new concept designed and manufactured in Italy with purposeful ergonomics and carefully matched performance allowing the rider the similar extreme riding feel of an actual road racing bike with the benefit of reduced costs and investments in comparison to full on racing programs.

With a choice of 5 models powered by 4-stroke sealed electric or kick start engines ranging from 8 to 25 HP - stainless steel and titanium fiber Arrow exhaust systems - 4 speed transmission - front disc with 4 piston monobloc radial calipers - twin pistons for the rear disc with sintered pads and braided hoses - either 10" or 12" aluminum alloy wheels - all components conceived for optimal function and performance - adjustable rear sets and levers - these Mini GP Bikes are nothing short of impressive.

"Blackfoot's identity has and always will be motorcycles. We have a very long and successful history of racing since 1970 both locally and nationally and were instrumental in the inception of the Alberta Mini Road Racing Association (AMRA) www.amra.ca well over 10 years ago," stated Vice President of the Blackfoot Group of Companies Jason Mitchell. "We have watched this affordable and exciting form of racing grow from the 1 club in Calgary into numerous Mini Road Racing Associations throughout Canada! When the opportunity became available to market the OHVALE Mini GP Bikes we were very excited as we know that these bikes will take the Mini Road Racing to another level while keeping the costs realistic."

"Not only will the bikes perform well on the Mini Road Racing tracks, there are motorcycle enthusiasts all over the world that are purchasing these OHVALE bikes and setting up riding cones in larger available type parking lots on any Sunday to enjoy the overall experience and safety these bikes provide," offered Eurorace Canada's Importer Michele De Rossi. "With Blackfoot Motosports commitment and passion to the motorcycle industry we are confident that not only will they put in a great effort in the racing world, they will also expose the OHVALE brand to all motorcyclists in Western Canada. We are very excited about this partnership."

Sponsorship packages will be made available through Blackfoot Racing's highly successful grass roots racing support program which currently supports over 100 riders in all types of motorcycle racing. Resume's can be emailed directly to: bfrmoto1@blackfootonline.com attention Casey & Kevin.
